## CAREER OBJECTIVE

Motivated B.Tech (CSE) student with real-world experience in backend development using Java, Spring Boot, and MySQL. Developed RESTful APIs and scalable applications as part of academic and internship projects. Seeking a backend development position where I can contribute to dynamic engineering teams and enhance my skills in cloud-ready technologies.

## EDUCATION

- ❖ B.Tech in Computer Science (R) – NIET, Greater Noida (2022 – 2026)  
**Relevant Coursework:** Web Dev, Python, Java, SE, CN, Cybersecurity, AIML, DBMS
- ❖ 12<sup>th</sup> – BSEB, High School Rampur Dih (Year :2022)

## PROJECTS

- ❖ **SmartStocker – Smart solution to track and manage stock levels.**  
Developed a web-based inventory management system using Java, Spring Boot, JSP, MySQL. Features include CRUD operations, search, price-based sorting, low stock alerts, category filters, admin login, and transaction monitoring — aimed at solving real-world issues in small businesses.
- ❖ **Netflix Clone**  
Built a Netflix UI clone using HTML, CSS, JS with 5+ navigable pages and mobile responsive layout.
- ❖ **Mini ML Project – House Price Predictor (Python)**  
Built using Python, Linear Regression, and Streamlit.  
Delivered 90% accurate price predictions using historical data, helping reduce the risks of overpricing or underpricing in real estate.

## TECHNICAL & SOFT SKILLS

- ❖ **Programming Languages:** Java, JavaScript, HTML, CSS, JSP
- ❖ **Frameworks & Technologies:** Spring Boot, REST APIs, API Integration, MVC Architecture
- ❖ **Database:** MySQL, RDBMS
- ❖ **Version Control:** Git, GitHub
- ❖ **Tools & IDEs:** Eclipse, Visual Studio Code, Postman
- ❖ **Soft Skills:** Teamwork, Problem Solving, Adaptability, Time Management

## ACHIEVEMENTS & CERTIFICATIONS

- ❖ Completed "Java Programming", "Python Basics", and "Introduction to AI" – Coursera (2023)
- ❖ Participated in AI Masterclass by Dhruv Rathee – 2025
- ❖ Familiar with MS Office tools including Word and PowerPoint

## INTERNSHIP

- ❖ **Python Development Intern – CodSoft (Remote)** *Duration: 4 Weeks | Oct 2024*  
Completed Python-based projects including a To-Do List and Password Generator using modular coding and logical problem-solving.
